## Education

### Tsinghua University

*B.Eng in Computer Science (Yao Class, [website here](#))*

Sep. 2019 – Present  
IIIS, Tsinghua University

- Current GPA: 3.74/4.0
- All AI-Related Courses: Machine Learning (A), Computer Vision (A), Introduction to Robotics (A), Data Mining (A), Introduction to Artificial Intelligence (A-), Causal and Statistical Learning (A-), Artificial Intelligence: Principles and Techniques (B+).

## Research experiences

### Towards Understanding Multi-modal Contrastive Learning

Feb. 2022 – Present

*Mentor: Professor Simon S. Du (University of Washington)*

- Built the theoretical framework for multi-modal contrastive learning by analyzing the gradient flow dynamics.
- Designed regularizers for improving the quality of learned representations.
- Testing regularizers on real-world multi-modal datasets.

### Towards Understanding Multi-modal Robustness from an Information-Theoretical View

Jul. 2021 – Present

*Mentor: Professor Hang Zhao (Tsinghua University)*

- Proposed an information-theoretical framework to explain the discrepancy among previous conclusions on multi-modal robustness.
- Designed a metric and its calculating pipeline based on mutual information for evaluating various multimodal datasets in terms of modality complementarity.
- Designed and conducted experiments to show the effectiveness of the metric.
- Summarized the findings in a first-author paper submitted to ICLR2023.

### Difference-in-Differences: Bridging Normalization and Disentanglement in PG-GAN

Jul. 2020 – Present

*Mentor: Professor Yang Yu (Tsinghua University)*

- Conducted experiments and plotted graphs to verify the DID counterfactual framework which clarifies the mechanisms how pixel normalization causes PG-GAN entanglement.
- Demonstrated the huge potential of causal methods for explaining and controlling network behaviors.
- Summary of findings available [here](#).

## Selected projects

### Real Image Editing on User-Specified Semantics by GAN Inversion model

Feb. 2021 – Jul. 2021

*2021 Spring Computer Vision course project*

- Implemented a compact application to find user-defined semantic directions in GAN's latent space and do real image editing, taking advantage of pre-trained GANs and corresponding inversion models. See our codes [here](#) and final report available [here](#).

### Photon Mapping

Dec. 2021 – Jan. 2022

*2021 Fall Advanced Computer Graphics course project*

- Implemented the photon mapping algorithm and other functions including anti-aliasing, texture mapping, KD-Tree and so on. See the codes and results [here](#).

### Multi-thread Programming, Memory Management, and RPC

Sep. 2021 – Jan. 2021

*2021 Fall Operating System coursework*

- Implemented multi-thread programming in a recommender system, emulated a simple memory management system, and provided remote memory management service through RPC. See the codes [here](#).

## Honors and scholarships

---

Volunteer Excellence Scholarship, IIIS, Tsinghua University	2022
<a href="#">Spark</a> Scientific and Technological Innovation Fellowship, Tsinghua University	2021
<ul style="list-style-type: none"><li>top 1% of 3800+ Tsinghua '23 undergraduate students for outstanding research performance</li></ul>	
Sports Excellence Scholarship, IIIS, Tsinghua University	2021
Silver Medal (Rank 21/318) in China Collegiate Programming Contest (Regional, Harbin)	2021
Xuetang Program Scholarship, Tsinghua University	2020
Gold Medal in National Olympiad in Informatics (Invitational)	2018
First Prize in National Olympiad in Informatics in Provinces	2016,2017

## Service and leadership

---

<b>Council Member of Spark Innovative Talent Cultivation Program</b>	Sept. 2021 – Present
<b>Member of Class Committee, Yao Class 92</b>	Sept. 2020 – Present
<b>Member of Beijing Volunteer Service Federation</b>	Sept. 2019 – Present
<ul style="list-style-type: none"><li><a href="#">90.5 hours of recorded volunteer experience</a></li></ul>	
<b>Member of Tsinghua University Student Association For Brain Science</b>	Sept. 2019 – Present

## Skills

---

**Languages** : Python, C/C++, Go, Matlab, LaTeX, SQL, Verilog

**Framework** : Pytorch

**Languages** : Chinese (Native), English (TOEFL 110 (R30+L29+W28+S23); GRE 332 (V162+Q170) + AW4.0)

## Preprints

---

- Zhengqi Gao, Sucheng Ren, Zihui Xue, Siting Li, Hang Zhao: Training-Free Robust Multimodal Learning via Sample-Wise Jacobian Regularization. CoRR abs/2204.02485 (2022)
- Xiao Liu, Jiajie Zhang, Siting Li, Zuotong Wu, Yang Yu: Difference-in-Differences: Bridging Normalization and Disentanglement in PG-GAN. CoRR abs/2010.08402 (2020)
